In **Poland**, some 25 new cases have been confirmed over the past 24 hours, bringing the total to 47 confirmed Covid-19 cases, the Ministry of Health announced. Health Minister Łukasz Szumowski advised against panic behaviors like storming shops to hoard food items. He pleaded for rationality, and assured the public that Poland is a food products-rich country where no one will run short of anything. Poland's Territorial Defence Force, a branch of the Polish army patterned after the US National Guard, has been put on alert status to help fight the spread of the virus in Poland.

In **Estonia**, 3 new cases have brought the total number of confirmed Covid-19 infections to 16. Two of the new cases were members of a local volleyball team that played against a visiting Italian volleyball team in Saaremaa, Estonia.

In **Latvia**, two patients belonging to the same tourist group that visited a ski resort in Italy were tested positive for Covid-19, bringing the total number of confirmed cases to 10. All patients remain at their homes under the supervision of their family physicians. So far, 291 people have been tested for Covid-19, including 17 in the last 24 hours.

**Ukraine** closed schools and banned public events of 200 people or more, starting today, 12 March 2020, even if Ukraine has only one confirmed Covid-19 case so far.
